## LETTER FROM BOARD CHAIR AND EXECUTIVE DIRECTOR

Dear Friends,

**There's No Place Like Home.** That sentiment is true for all of us, but especially for people who experience homelessness. Montgomery County Coalition for the Homeless (MCCH) believes that every person is entitled to the dignity of a home and the feelings of relief and security, and the realization of life's opportunities that come with it. This is the driving force behind our high-quality permanent housing programs, emergency shelter, and our Safe Haven program for people who experience homelessness and those who are formerly homeless.

**It's Not as Easy as Clicking Your Heels Together: How We Get People Housed.** With your help, we served 1,602 homeless and formerly homeless men, women, and children in FY13. In this report, you'll read about how our permanent housing programs and our Coalition Homes affiliate combine supportive services to help our formerly homeless clients maintain high rates of housing stability in their new homes. You'll learn about how we help people who are experiencing homelessness connect with the resources they need to move onto stable lives and housing. We work hard to help our clients achieve their goals and to eliminate the common barriers clients face in accessing the resources they need.

**Like Dorothy in The Wizard of Oz, we are not alone on our yellow brick road journey toward ending homelessness; kind-hearted individuals with keen intellects and brave and unyielding spirits help our clients get home.** We are always working with community partners on new opportunities and partnerships to serve those in need. To create permanent housing options for our most vulnerable homeless population, we accepted the invitation from Montgomery County Department Health and Human Services to co-lead the national 100,000 Homes Campaign in the County. This partnership with the local government, nonprofits, organizations, and other community members will develop a systematic approach to identifying these individuals by name and prioritizing their permanent housing placements.

The successes of the past year would not have been possible without the generosity of our donors, including businesses, foundations, congregations, organizations, individuals, families, and many more. We thank our staff who are devoted to changing lives through the work that they do each day, and we are amazed at how our volunteer base grows by leaps and bounds. As we evolve as a provider and an advocate, the support of our community continues to grow.

We are proud to share these highlights with you. Thank you for sharing our vision of a community where everyone has a stable place to call home and for all that you do to make that come true.

Warmly,

Chair, Board of Directors

Executive Director

## GETTING PEOPLE HOME: OUR WORK IN FISCAL YEAR 2013

### Our Mission

Montgomery County Coalition for the Homeless (MCCH) provides solutions to end homelessness in Montgomery County. Our vision is to build a community where everyone has a safe, stable, and affordable place to call home.

### Our Direct Services

MCCH direct services accomplish our vision by:

- Meeting the urgent needs of people experiencing homelessness by providing short-term emergency shelter along with the supportive services needed to return people to stable housing as quickly as possible.
- Connecting people who are experiencing homelessness to stable, permanent housing along with the services and supports they need to maintain housing.
- Increasing the supply of affordable housing in order to provide stable permanent homes for people exiting homelessness.

### Our Community Education and Advocacy

MCCH advances the creation of policies and resources needed for a comprehensive and rapid response system to prevent and end homelessness in Montgomery County. MCCH co-leads the Montgomery County 100,000 Homes Campaign, part of a national movement of over 200 communities working to find permanent homes for 100,000 individuals. The campaign's work is driven by multiple studies demonstrating that homeless individuals are three to four times more likely to die prematurely than the general population.

### Our Clients

MCCH served 1,602 homeless and formerly homeless men, women, and children in FY13.

- 160 families (304 children and 198 adults) and 260 individuals maintained stability in our permanent housing programs.
- 785 homeless men received essential case management, as well as medical and vocational services at our emergency shelter.
- 55 homeless women and men with severe mental illness received psychiatric services and developed daily living skills in our Safe Haven first-step housing program.

### Our Community Outreach

In FY13, over 9,200 people in 95 groups in Montgomery County learned about homelessness and its solutions from MCCH.

Below: County Executive Isiah Leggett and Councilmembers George Leventhal and Craig Rice joined MCCH and other leadership team members to announce Montgomery County's involvement in the 100,000 Homes Campaign at a press conference on June 26, 2013 at MCCH.

### THE ROAD HOME

MCCH believes that everyone deserves the dignity of a home. Every person's journey to housing stability is different. Across our spectrum of housing and supportive services, we focus on meeting the needs of every client as they travel their own yellow brick road home.

**With the help of MCCH and our supporters, people are:**

#### Permanently Housed

Simply put, we move people into permanent homes. We know from firsthand experience serving homeless and formerly homeless clients in our community for over 20 years that people need access to permanent homes to end their experience of homelessness. For years, MCCH has embraced the best practice of "housing first," an approach to ending homelessness that centers on first providing permanent housing as quickly as possible and then providing services as needed.

#### Maintaining Housing

We also know that many people require supportive services tailored to their individual needs to maintain their housing stability. Our supportive services are tailored towards this outcome, and we track results across multiple programs,

including how long individuals and family households maintain housing stability at various intervals. We are proud to report that in FY13, 94% of clients (396 single adults and individuals in families) in our permanent housing programs maintained stable housing.

#### Moving Into More Stable Housing

For our clients who are experiencing homelessness, MCCH operates our emergency shelter for homeless men and our Safe Haven first-step housing for adult men and women with severe mental illness. These programs provide more than just shelter—they provide the vital resources and connections that people need to address their challenges and move into more stable housing.

Our Home Builders Care Assessment Center (HBCAC) emergency shelter for men connects clients to supportive services so that they will be able to take that next step and move on. During fiscal year 2013, 134 men—17% of HBCAC clients—moved into more stable housing.

At Safe Haven, case managers provide the necessary support for clients to move at their own pace with the ultimate goal of moving into permanent supportive housing. This is a high bar for this very vulnerable population. In FY13, 14 people—25% of Safe Haven clients—moved on to more permanent supportive housing.

## Achieving Goals

Our skilled case managers connect individual clients to necessary resources and critical treatment as well as helping clients reach their specific goals and addressing barriers to housing stability. With this individualized and client-centered support, people in our programs change their lives, one milestone at a time.

In FY13,

Of the adults in our permanent housing programs:

**84%**

were referred to and utilized community resources.

**44%**

regularly accessed mental health or substance abuse treatment.

**33%**

acquired or maintained employment.

**21%**

were enrolled in educational or vocational training programs.

Of the men who received case management at our HBCAC men's emergency shelter:

**18%**

acquired or maintained employment.

**18%**

were enrolled in an educational or vocational training program.

**14%**

regularly accessed mental health or substance abuse treatment.

Of our Safe Haven clients:

**98%**

were referred to and utilized community resources.

**78%**

engaged in social or community activities at least three times.

**44%**

regularly accessed mental health or substance abuse treatment.

### THERE'S NO PLACE LIKE HOME FOR CHILDREN

It's alarming that children experience homelessness every day in Montgomery County. According to the 2013 Point-in-Time count, an annual regional survey conducted by the Metropolitan Washington Council of Governments, 229 children in families were identified as homeless in Montgomery County.

MCCH is a leader in creating permanent housing solutions for families and their children experiencing homelessness. In fact, in FY13 MCCH operated three permanent housing programs that served 304 children in families.

- 263 children were housed in scattered site apartments in PPH.
- 33 children were housed at SHA.
- 8 children were housed in Hope Housing townhomes.

MCCH is committed to the well-being of children and youth in our programs and breaking the cycle of poverty for this second generation. At SHA, infants and toddlers are enrolled in a local Head Start program and students participate in an on-site homework club. Seven youth in PPH graduated from high school in FY13, and six were enrolled in colleges in the fall of 2013.

Every family is unique and on-site case managers support parents by creating comprehensive plans that address and remove barriers to housing and services for the entire family. Our programs allow families to develop and practice enhanced household competencies and other basic life skills. For many job-ready parents in our programs, access to high-quality, reliable, and affordable child care is essential but can be an ongoing challenge. When necessary, our case managers work hard to help clients find alternate solutions. Case managers also encourage parental involvement and partnerships with educators and school officials, and they routinely discuss academic achievements and challenges with the families.

#### Sandra and Her Children's Road Home

At 16, Sandra left home and dealt with tumultuous relationships for the next 12 years. "I lived in crisis," she says. Moving from place to place, she eventually realized her focus needed to shift to the well-being of her three young children and that she had to leave their father, an abusive alcoholic. At this turning point, she entered the homeless system and eventually became a resident at Seneca Heights Apartments (SHA) in February 2011. Things continue to get better for Sandra and her family, and she says, "I love seeing my children have a stable place to start their day. We are happy; the years of turmoil are over."

## A LOT MORE THAN JUST CLICKING OUR HEELS TOGETHER: HOW WE GET PEOPLE HOME

### MCCH Programs

We serve people experiencing homelessness and those who are formerly homeless with a range of high-quality housing, shelter, and supportive services.

### Permanent Housing

#### Partnership for Permanent Housing (PPH)

Our largest program, PPH, provides home-based case management to families and individual adults at subsidized scattered housing units. In FY13, PPH served a total of 139 families, 263 children in families, and 176 single adults. Over 120 units were dedicated to serving families and 55 units were dedicated to serving single adults. PPH is the County's first "Housing First" program.

Children at PPH's annual Back-to-School Expo enjoy arts and crafts.

#### Creative Housing Initiative Pilot Project (CHIPP)

CHIPP provides permanent housing for 16 men and women who were frequent users of the emergency medical and corrections systems while experiencing homelessness. With the help of dedicated case managers, residents, many of whom suffer from multiple disabilities, work to achieve and maintain housing stability with vital supportive services that are tailored to their individual needs. The availability of CHIPP housing is secured through the purchase of Moderately Priced Dwelling Units.

#### Seneca Heights Apartments (SHA)

SHA provides permanent housing with on-site services for 40 single adults and a total of 33 children in 19 families. All residents receive case management and supportive services and have opportunities to engage in community activities, including an active tenant council and a weekly coffee club. As a renovated motel, SHA is an award-winning permanent housing model offering each household an individual unit in a community environment.

### Cordell Place

Cordell Place is an apartment building that serves as a permanent home with on-site services for 32 formerly homeless men and women in downtown Bethesda. Case managers support residents' development of independent living skills, including goal setting, budgeting, and accessing community resources. Cordell Place is the first Personal Living Quarters housing model in the county.

**All residents in MCCH permanent housing programs live as independently as possible, signing one-year leases for their own units and paying 30% of their income toward rent.**

### Coalition Homes: Providing Housing for the Formerly Homeless

An important part of MCCH's approach to ending homelessness is the work of our subsidiary, Coalition Homes. Created in 2005, Coalition Homes is a nonprofit housing development organization that owns and operates 96 units of permanent affordable housing for formerly homeless individuals. Most households receive supportive services through MCCH programs. Cordell Place is MCCH's first housing program situated in a building owned and renovated by Coalition Homes. We are proud of what we have accomplished together!

### Brandon's Road Home

After a dispute with his mother, Brandon was kicked out of the house for the last time. He stole food in order to survive, wishing he would get caught and sent to jail so he would have shelter somewhere. Brandon eventually was connected to our Home Builders Care Assessment Center men's emergency shelter where he started meeting with a case manager. His case manager encouraged him to help in the kitchen. He worked in the kitchen every day, and it was a perfect fit as he always had a passion for cooking.

Brandon is now permanently housed at Cordell Place, which is owned by Coalition Homes. When asked what it was like the day he got the key to his apartment, he

replied, "I was scared. I didn't sleep the night before. All the prep work was done, and now came the real work. Even though I was scared, I was excited beyond belief!"

He is now working full-time in the kitchen of a five-star restaurant and working toward earning a general studies degree.

*"The journey of being homeless has shown me that I can truly overcome anything and everything. I also learned that people really do care and want to try to help, you just have to ask for it!"*

## Home First

Home First permanent supportive housing provides homes for 30 single adults with disabilities who experienced chronic homelessness prior to entering the program. Residents live in apartments or houses and receive psychiatric rehabilitation. Case managers provide other essential services to ensure housing stability and connect residents with supports in their community.

## Hope Housing

Hope Housing provides permanent supportive housing and case management to 40 formerly homeless single men and women and two families headed by parents with disabilities. Each family resides in a single-family home and the single adults live among eight shared houses. Hope Housing is a partnership between MCCH and two other community-based organizations.

## Safe Haven Housing

Our Safe Haven program provides first-step housing with intensive supportive services to homeless adults with severe mental illness, a group often deemed the most difficult to serve. With the support of skilled case managers, clients progress at their own pace with the

ultimate goal of moving into permanent supportive housing. In FY13, 55 individuals in four shared living facilities were served and engaged in on-site psychiatric services, case management, counseling, and life skills development services.

## Emergency Shelter

The Home Builders Care Assessment Center (HBCAC) men's emergency shelter offers men experiencing homelessness in Montgomery County a safe place to sleep, bathe, and eat. Clients are engaged in supportive services that connect them to available resources and stable housing, including case management, medical care, and our Back-to-Work job training and vocational counseling program. In FY13, HBCAC provided almost 39,000 nights of shelter to 785 men.

## Nitya's Road Home

Originally from India, Nitya moved to the United States in 1985 and settled in Kensington, where she lived with her husband and son. In 1998, Nitya separated from her husband. After losing her husband's financial support and her job, she found herself living in her car. In 2006, Nitya moved into one of our Safe Haven houses.

She was diagnosed with post-traumatic stress disorder and anxiety. Nitya discovered she had a talent for knitting when a volunteer craft group started providing lessons to residents. She plans to hold a show to sell her scarves, bags, sweaters, and ponchos. With our help, Nitya replaced her lost green card, became a U.S. citizen, and took driving lessons to renew her license. Nitya works part-time at Howard University and is seeking full-time employment.

## **WE FOLLOW THE ROAD WITH OUR FRIENDS**

We could not make the great strides we do in ending homelessness for our clients without the many community partners who stand behind our belief that all persons are entitled to the dignity of a home. Just like Dorothy with the Cowardly Lion, Tin Man, and Scarecrow, we travel our own yellow brick road—the road to housing for all—with our own courageous, dedicated, and generous friends.

These friends set the example—they raise the bar—of what it means to be a community dedicated to serving our most vulnerable neighbors.

### **Our friends are: Dedicated Volunteers**

We are grateful for the more than 2,900 volunteers who donated over 11,200 hours to MCCH in FY13. Individuals and groups provided their time and talents to a range of important projects. Volunteers serve in many capacities including in the administrative office, greeting visitors and answering calls at the front desk, sorting and tracking donations to clients in our programs, researching opportunities to fund our work, and staffing our many community events.

### **Generous Donors**

Donors of goods, services, and food are the backbone of our programs for client needs, donating over \$330,000 in in-kind donations—a 14% increase from FY12! Individuals and groups provided adults and children in our programs with necessary essentials, including move-in baskets of household items and backpacks filled with back-to-school supplies. Many holiday wish lists were fulfilled because of those who donated gift cards and purchased specific items.

One of the most important ways the community supports our work is by providing meals for the men at our HBCAC men's emergency shelter. FY13 was another banner year as 84,213 meals were donated—a 3% increase over last year.

A volunteer from Snyder Cohn trims the bushes at one of our Hope Housing program sites.

Employees from the Montgomery County Register of Wills donates new backpacks filled with necessities for HBCAC clients.

Duke Ellington School of the Arts in D.C. was one of the many local schools that held a Help the Homeless Walk to support our programs.

Volunteers at our events always help keep everything running smoothly.

## Model Corporate Citizens

We are proud to call a number of businesses in the community our Corporate Partners. These businesses design their own projects and on-going relationships with MCCH. Activities may include sponsoring families and individuals in our programs, completing yard and other site maintenance, holding donation drives, and sponsoring events.

## Community Events & Partners

We raise awareness of homelessness and its solutions so that our community can join us to advocate for those in need. Over 9,200 people representing 95 community groups, including schools, congregations, nonprofits, businesses, and other groups, learned

about homelessness through MCCH's educational presentations—a 9% increase over last year! Thirty groups held community walks with MCCH to raise awareness and funds for our programs as part of Fannie Mae's Help the Homeless Program. We kicked off the program with our annual Shelter Walk 'n Roll in May at a new location, Mattie J.T. Stepanek Park.

We love to come together with supporters throughout the year to celebrate our progress and re-commit to our goal of ending homelessness. There was no more inspiring place to do that than at our There's No Place Like Home: Celebrating Partnerships Gala on March 7, 2013.

Like Oz's Emerald City, the Gala was a magical celebration led by Gala Chair Tamara Darvish of DARCARS Automotive Group and Gala Emcee Leon Harris of ABC7/WJLA-TV. We honored volunteers Anna Guido Perrone and Maria Guido with the Distinguished Volunteer Award; Richard "Dick" Pettit, president of Pettit Companies, with the

Distinguished Service Award; and Montgomery College with the Distinguished Partner Award. These community partners are committed to giving back and making invaluable contributions toward ending homelessness in Montgomery County.

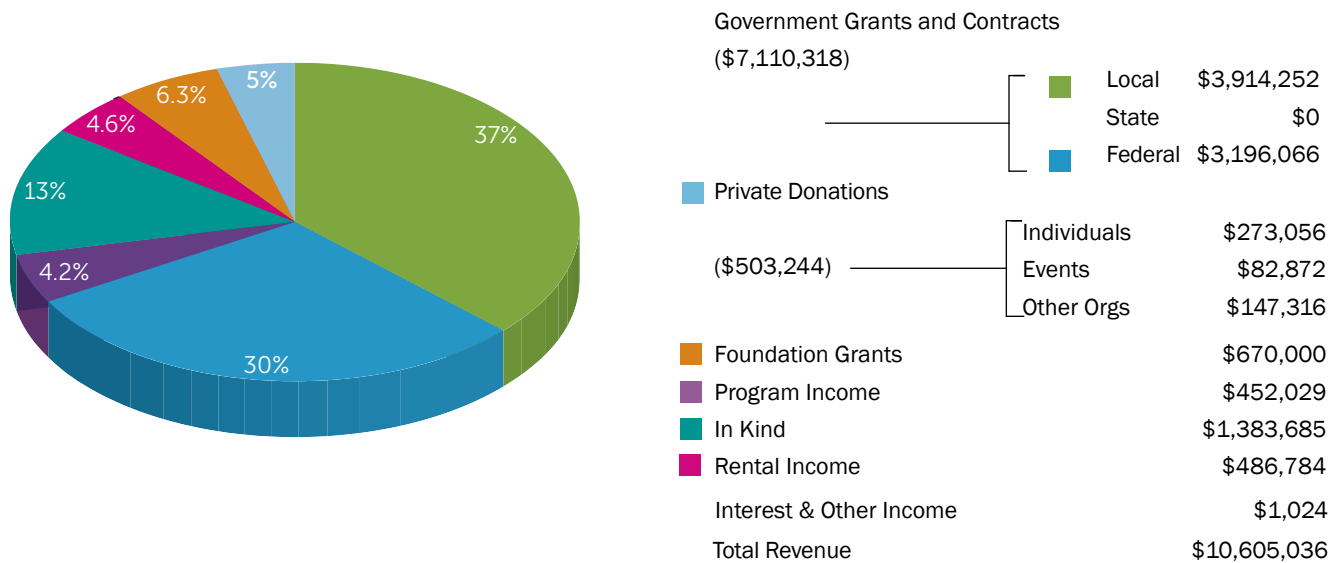

We were pleased to honor dedicated volunteers and sisters Anna Guido Perrone and Maria Guido (far right); Montgomery College (3rd from right) was recognized for their ongoing partnership with MCCH; and Richard "Dick" Pettit (center), President at Pettit Companies, was presented with a distinguished service award.

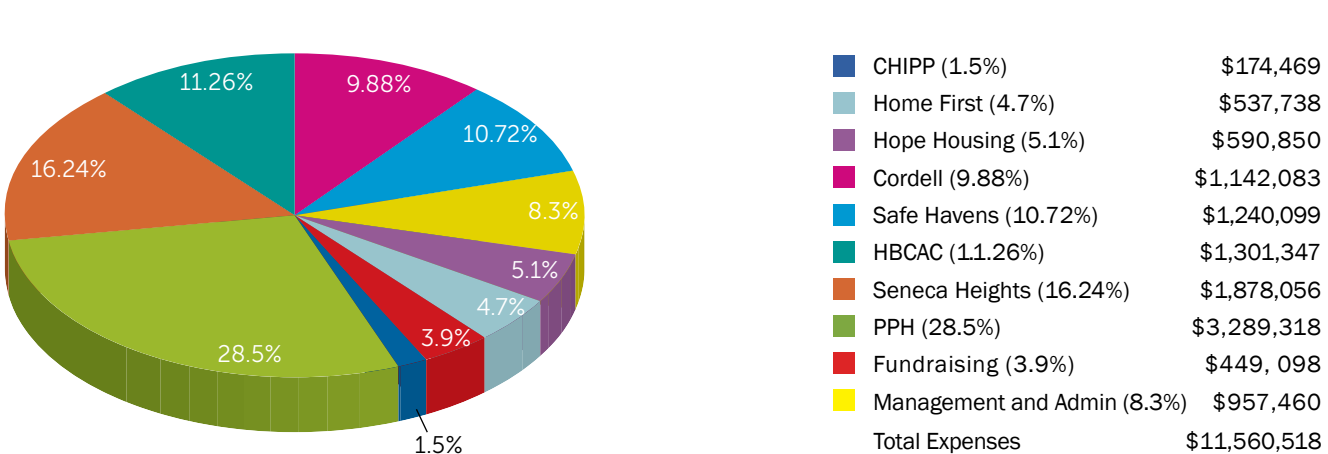

## 2013 SUMMARY OF REVENUE AND EXPENSES

### 2013 Revenue

### 2013 Expenses

\* The financial statements for Montgomery County Coalition for the Homeless were audited by an independent auditor and are available in their entirety at the MCCH administrative offices.
